

March 7-179
Boston 92 Mr. Remond

My dear Mr. Garrison.

44

I have to regret
often that friends
are sent away from
my door whom I
would gladly see.

Because of the necessity
I am under in working
hours of avoiding
general interruption.

Especially I
wanted to see you
to impart the latest
word about the

last. A letter
from Mr. Powers
recd. some time ago
informs me that
the box was sent
through mistake
by sailing vessel.
which left Leegh
the 20th Nov.

Even by sail this
is a long voyage. I
do not give it up -
but if it has gone to
the bottom we may
take comfort in the
thought that it is

insured - & for enough
of its value I must
to make another.

I think I have
to thank you for the
paper containing your
reply to Mr. Blaine
on the Chinese question.

I thank you for
upholding in this as
in all other cases the
Ideal - If only two
or three in a wide
community did the
same the evils of
speculation & dishonesty
would be left with

little influence.

What a power is
the one man power when
it has those "great
allies" which one must
not name.

With best regards
I am yours sincerely -

Wm. D. Whitney.
